

*Billions of Dollars from Qatar has been pivotal in turning Americans against Israel*

RE: NYT Opinion Michelle Goldberg piece "How Israel Lost Americans"

Michelle Goldberg serves up many falsehoods and half-truths in her opinion piece. A prime reason for the completely unjustified demonization of the Jewish State within American society is the billions of dollars pumped by Qatar into American Universities. Qatar, a main patron of the Muslim Brotherhood, an Islamist group whose goal is the genocide of Jews worldwide and subjugation of all non-Muslims via jihad, has an endless cash stream to prop up its fanatic worldview.

TV and other media including journalists such as Goldberg have also joined in lockstep with Israel-haters to smear the one and only Jewish State on the planet by consistently parroting and amplifying anti-Israel lies spewed by the Palestinian Authority or Iranian-backed Hamas jihadi terrorists and their sympathizers.

Tonight begins the holiday of Purim, where evil Haman of ancient Persia, trusted officer of the King Ahasuerus (identified as Persian King Xerxes, reigned 486-465 BCE), sought to exterminate all the Jews from near and far. With Divine intervention, the Jewish nation's leaders, Mordechai and Esther, were elevated to deserved royal status and Haman and his followers were destroyed. Those who bet against the Jewish State and Jewish people are sure to lose.
